

authorize.net
A Visa Solution

Authorize Connect

Scale your card processing — automate with Big Business

- store cards in built-in Secure Cards
- send card details to Authorize.net for instant processing

Secure Cards

- stores card details, encrypted, with controlled access
- assigns cards by Last Four to Orders and Invoices

Authorize

- click Authorize to process instantly, keying only the amount
- automatically save a Payment (authorized-only or captured)

Speed your workflow

- checks for valid card number when keying in
- checks for valid expiration when selecting for re-use
- gives an instant result and saves payment for real-time ordering
